Shelf Life

Our **Wine and Craft Beer Jellies** are very stable, similar to honey or syrup. Store unopened jellies upright in the cupboard and away from extreme temperatures. Once opened, keep refrigerated. Since they are very stable “they are good until gone”. If you find a jar in your refrigerator a year from now, just buy more cheese and enjoy!

Planning a wedding or a shower, our small 60ml jellies make wonderful favours for your guests.

Remember to “Like”, “Follow”, and “Share” our posts on Facebook and Instagram.
